

SHORTY

Transport chair

SHORTY

The SHORTY transport chair has been designed with comfortable patient transport in mind. Its ergonomic design provides maximum comfort during transport and ensures safe and reliable use.

Easy handling

The SHORTY chair has been designed to be easy to operate with one hand. Its controls are also usable by people with limited mobility.

Load capacity up to 200 kg

The simple and robust metal construction with a load capacity of up to 200 kg ensures excellent handling, reliability, durability and long life of the chair.

Choice of colour

The choice of colour design allows for patients and staff to create an aesthetic and inviting space that can help improve mood, comfort and reduce stress.

Folding armrests and footrest

For better transport comfort, the chair is equipped with armrests and a footrest that can be easily folded.

Stackability

Another advantage is the possibility of stacking multiple chairs and then locking them with a coin lock.

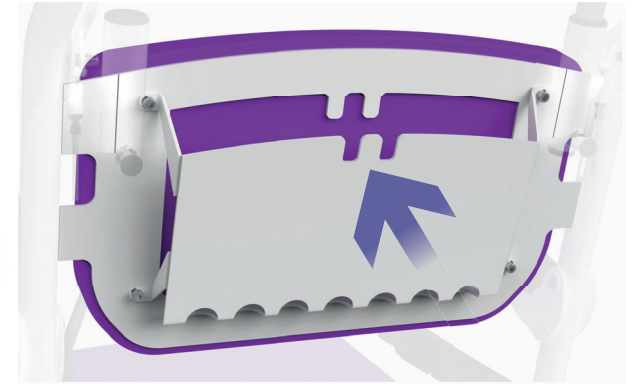

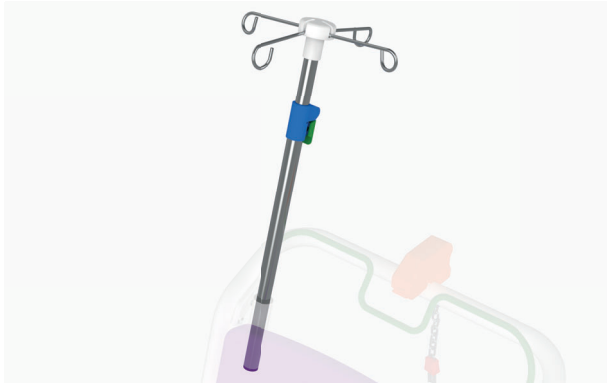

Maximum safety thanks to automatic brake

The biggest advantage of the SHORTY chair is the automatic braking system designed to automatically brake the chair when the handle is released.

Choose the accessories to suit your needs

You can choose from a wide range of accessories such as an IV pole, a change basket, a coin box, a document box with a bag hook, a safety belt, or a accessories bar with hooks.
