

DOMUS 4

width 88 - 90 cm

III. deg. pressure ulcers

load capacity 180 - 250 kg

height 12,7 - 20,3 cm

air mattress

Dynamic anti-decubitus air mattress

Experience unparalleled comfort with Domus 4, our advanced air mattress equipped with a digital control panel. This cutting-edge design provides precise control over air levels, delivering consistent support to prevent bottoming out, and ensure coccyx pressure relief even while seated. Additionally, the function offers a stable surface for caregivers to perform tasks easily, enhancing overall functionality and convenience. Domus 4 ensures a tailored sleep experience, enhancing immersion and envelopment for a soothing sleep environment.

TECHNICAL PARAMETERS

- active anti-decubitus system for people with medium to high risk of developing bedsores with digital control of operation => longer service life of the internal air source
- the system is placed directly on the bed slats, air hoses are connected using a connector
- 5 therapeutic modes: alternating, mode with constant low pressure (CLP), sitting support mode with alternation, sitting support mode with CLP, max. inflation mode
- low pressure alarm, power failure and service alarm
- system for protecting the power supply cable
- cover 4-way elastic, vapor-permeable, antibacterial with 360° zipper and washable at 90°C

MATTRESS

size 200 x 85 - 90 cm
height 12,7 - 20,3 cm
weight 5,6 - 6,9 kg
type overlay / replacement
load capacity 180 - 250 kg
top cover material Nylon / PU
cell material Nylon / TPU

COMPRESSOR

dimensions 29 x 18,5 x 12,6 cm
mode Max firm / Alternate
/ Continuous Low Pressure / Seat inflate
noise <30 dB
holder integrated
weight 2,3 kg
material Fire Retardant ABS
