

TEDDY
Children bed

BUDDY

Children's adjustable bed Buddy is suitable for hospitalization of patients in ages ranging from several months up to 7 years. Can be used from orphanages through standard children's hospitals to specialized children's units. Bed can be produced in several sizes and wide range of varied colours. Can be equipped with optional accessories with safety features, mattresses and pillows.

Height adjustment mattress platform

The mattress platform of the bed can be adjusted in height in several steps. The individual sides of the mattress platform can be positioned individually to achieve special positions.

Foldable side rails

The height-adjustable side rails can be set to four different positions as needed. A simple and practical locking mechanism is used to secure them.

Mattress holders

Trendelenburg / Antitrendelenburg

Brakeable castors

Positioning of the back part

Universal accessory holders

Compatibility of the bed with accessories is ensured by universal accessories holders located at the headboard or footboard. They allow the use of the most common accessories such as handle, IV pole, bedside lamps or extension sets.

Choice of design

The possibility of choosing the colour design of the bed allows you to create an aesthetic and pleasant space that can help to improve the mood, comfort and reduce stress not only for the child but also for his companions during the stay in the hospital.
