

OSTEON
plastering couche

OSTEON

A special plastering couche developed in cooperation with leading specialists in the field of fracture fixation from the Brno University Hospital is a very useful tool for medical staff.

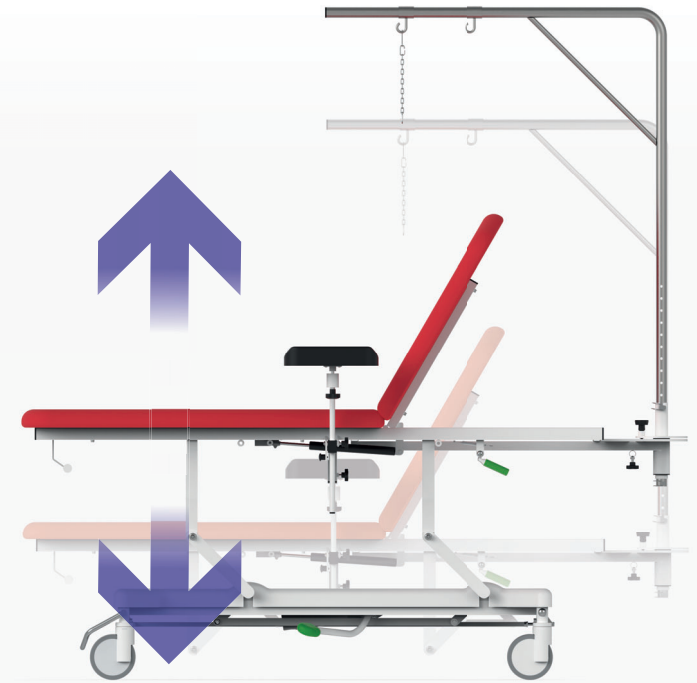

Adjustable armrest

Rotating, height-adjustable armrest with the possibility of placing it on both sides of the recliner. This armrest makes it easy to adjust the height and position to suit the needs of the attending staff.

Folding armrest holder

The folding armrest holder is used to fix the armrest and allows it to be folded under the mattress platform when not needed.

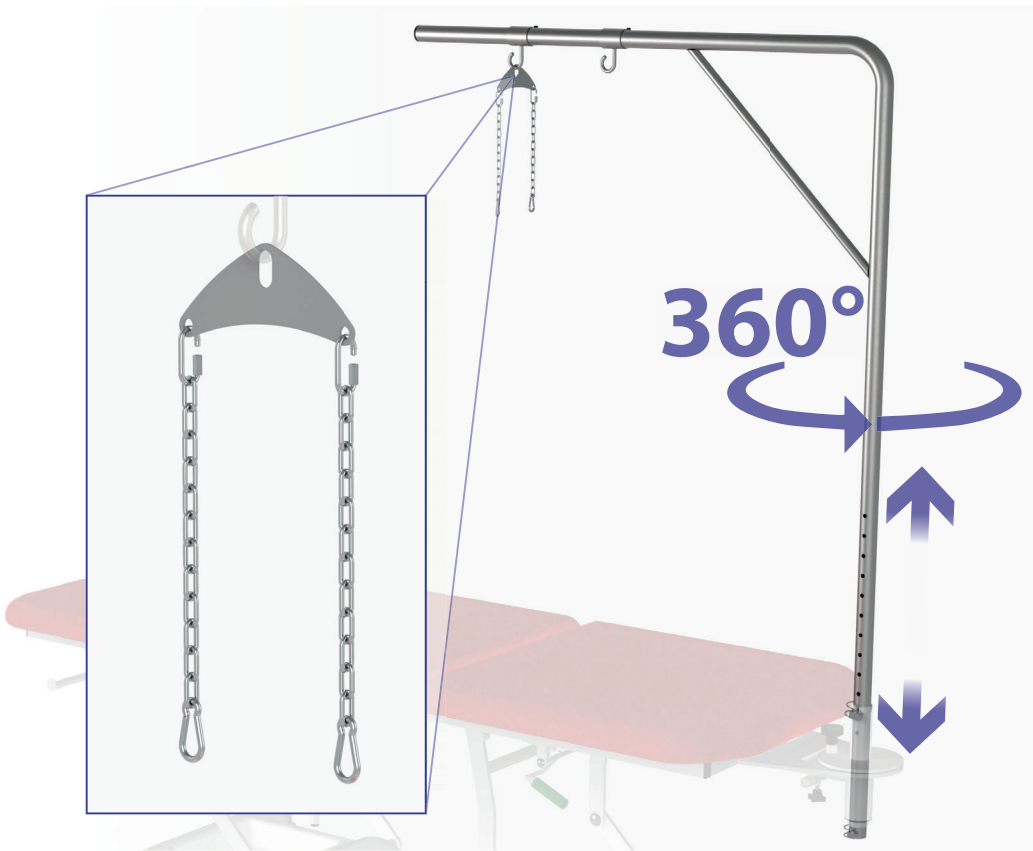

Hydraulic lifting of the mattress platform

For easier access to the patient, the bed is equipped with an hydraulic lifting of the mattress platform.

High load capacity

The solid and robust construction with a load capacity of up to 230 kg forms a secure support for patient care.

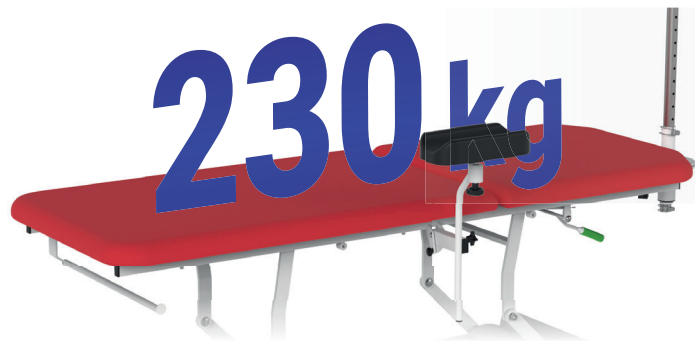

Height adjustable rotating trapeze

The height-adjustable rotating trapeze with a trapeze bar placed behind the patient's head is used to suspend the upper limb during plastering.

Choice of colour design

The choice of colour design for the leatherette of the examination couch allows patients and staff to create an aesthetically beautiful and inviting space that can help improve mood, comfort and reduce stress.

High load capacity

The solid and robust construction with a load capacity of up to 230 kg forms a secure support for patient care.

Hygienic paper roll holder

Hygienic paper holder can be found under the mattress platform.

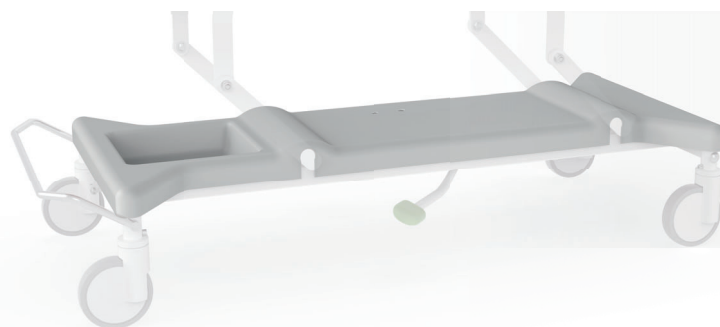

TENTE brand castors

High-quality medical castors with central brake, reducing physical effort for staff. Castors are made of permanent non-marking material. Castor covers facilitate cleaning and extend the life of the castors.

Storage space

The patient's personal belongings or necessary accessories can be stored in the compartment under the mattress platform.

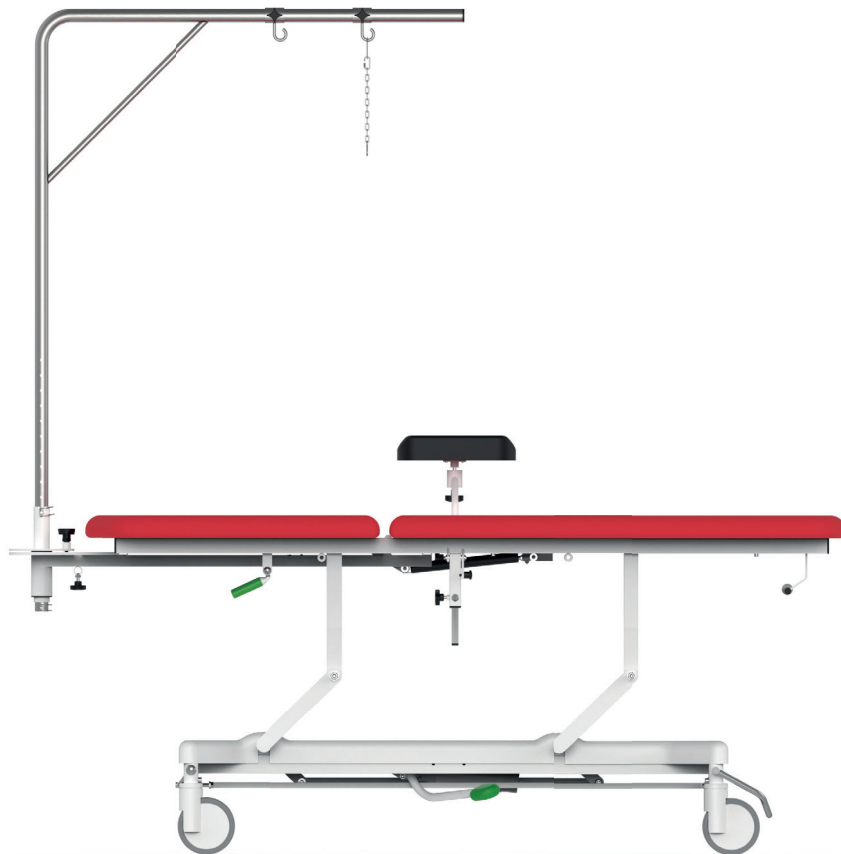

Plastic chassis cover

The plastic cover makes daily cleaning easier and faster. It also protects the chassis mechanisms, thus extending the life components and the overall reliability of the stretcher.

Medical leatherette mattress

The comfortable mattress is upholstered in medical leatherette.

Technical parameters

Outer dimensions 220 x 72 cm
 Mattress platform 203 x 72 cm
 Mattress platform height 52 - 89 cm
 Lift of mattress platform Hydraulic
 Back part positioning 0° - 85°
 Safe operating load 230 kg
 Weight 85 kg

Castors 150 mm, plastic
 Central brake Yes
 Material of mattress platform Medical leatherette
 Plastic chassis cover Yes (optional)
 Paper roll holder Yes (optional)
 Plastering trapeze including accessories Yes (optional)
 Armrest holders on both sides including one armrest Yes (optional)
