

CLASSIC
Examination couches

CLASSIC

The CLASSIC examination couches are designed for examining patients in reception areas and doctor's surgeries where no height positioning of the mattress platform is required.

High load capacity

The solid and robust construction with a load capacity of up to 170 kg forms a secure support for patient care.

170 kg

TENTE brand castors

The couche is equipped with TENTE branded, independently braked castors.

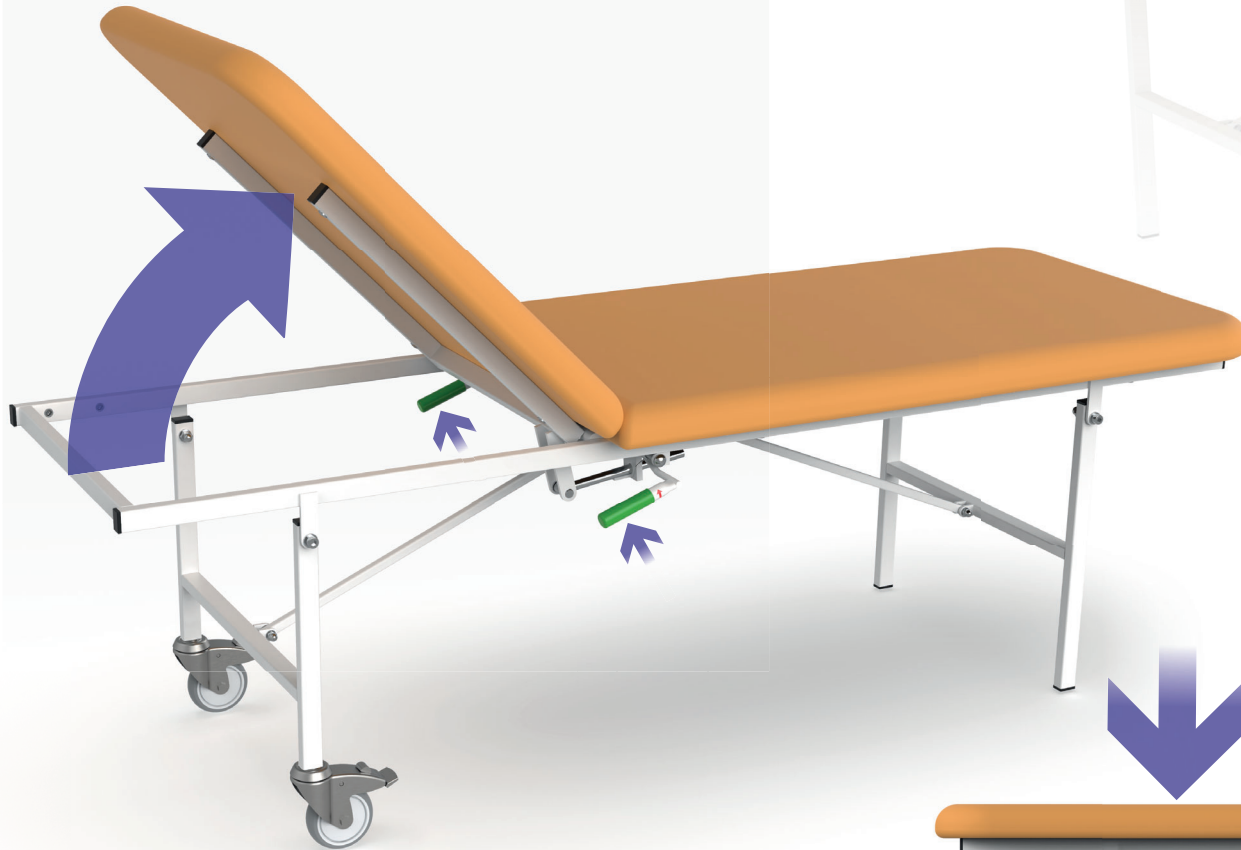

Choice of colour

The choice of colour design for the leatherette of the couch allows patients and staff to create an aesthetically beautiful and inviting space that can help improve mood, comfort and reduce stress.

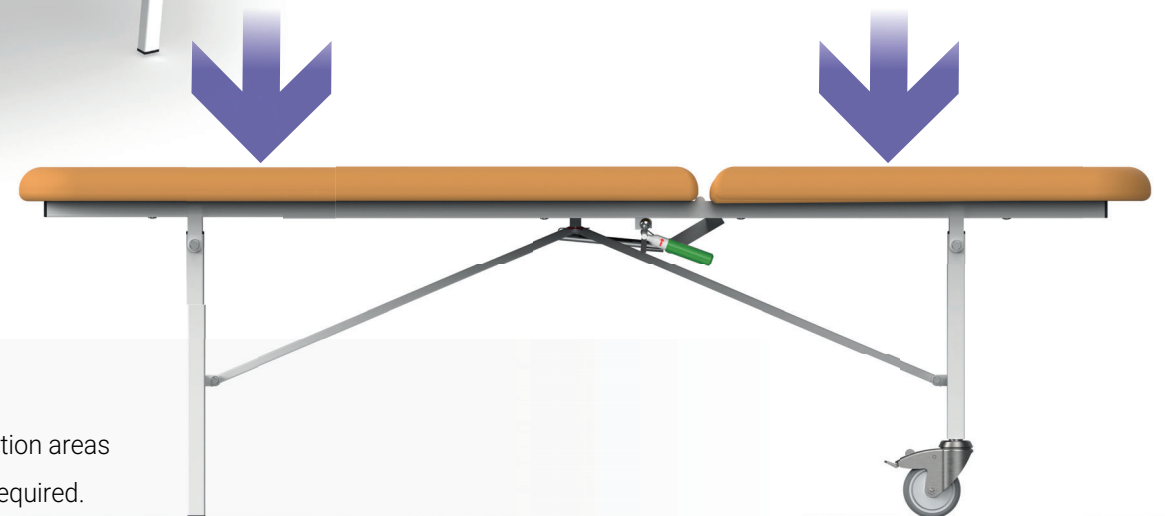

Positioning of the back part

Thanks to the gas piston rod, the positioning of the back part of the couche is easy and simple to operate.

Folding construction

The folding design allows easy folding and carrying of the examination couche.

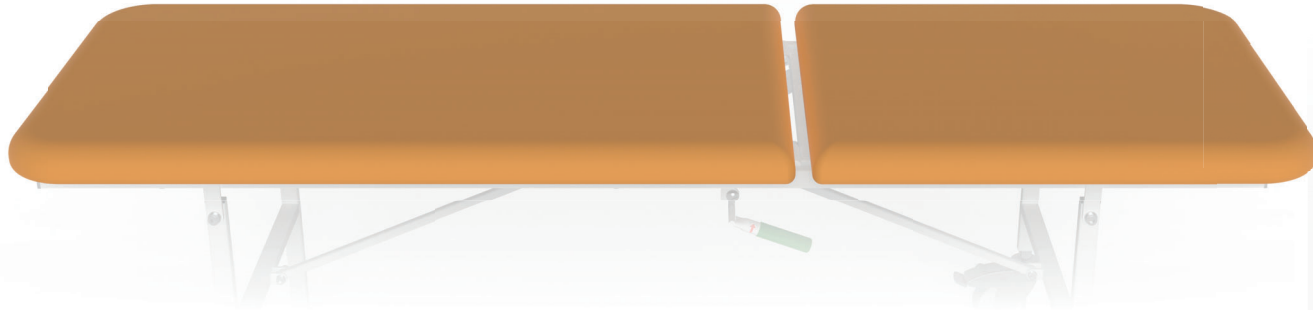

Height of mattress platform

The CLASSIC examination couches are designed for examining patients in reception areas and doctor's surgeries, where no height positioning of the mattress platform is required.

Mattresses made of medical leatherette

The comfortable mattress is upholstered in medical leatherette.

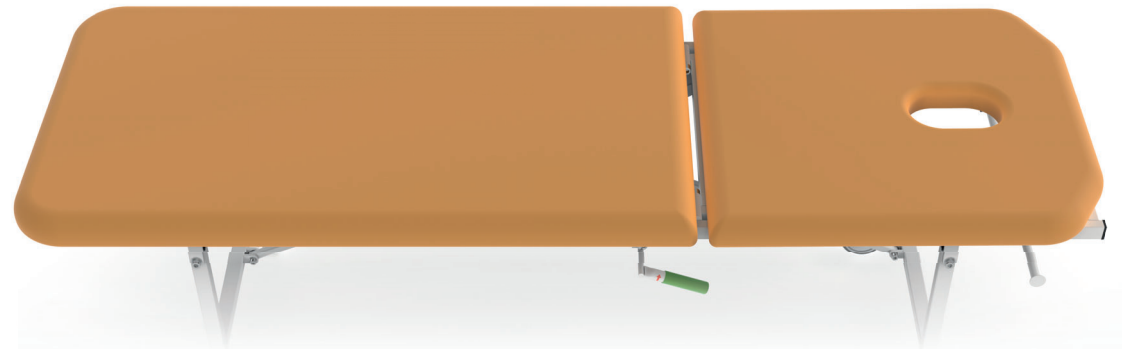

Hygienic paper roll holder

Hygienic paper holder can be found under the mattress platform.

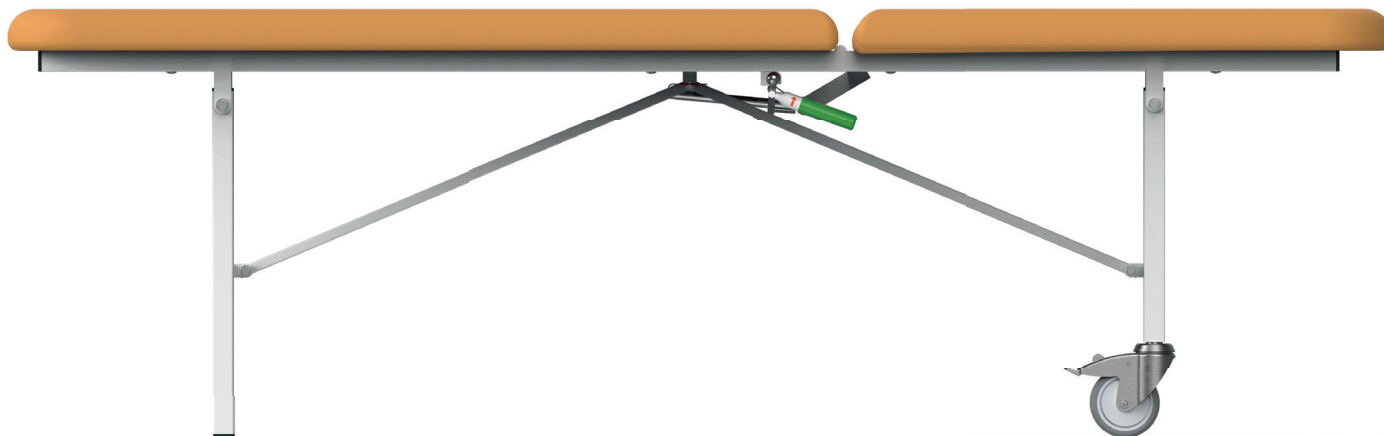

IV pole holder

The examination couche can be equipped with IV pole holder.

Face hole

The face hole allows patients to lie prone with more comfort and less pressure on the face and eyes. This is especially useful for patients who are recovering from surgery, have back pain or other health problems.
