

# DOMUS 2 plus

width 80 cm

II. deg. pressure ulcers

load capacity 140 kg

height 10,2 cm

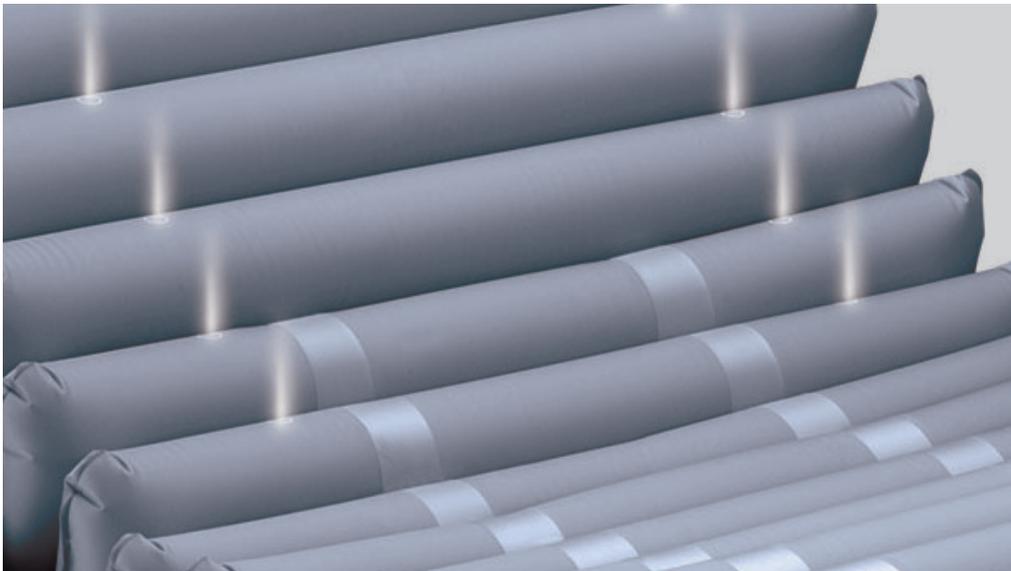

air mattress

Dynamic anti-decubitus air mattress

Individual cells inflate and deflate in an alternating pressure redistribution system. Domus 2 is an easy-to-use system designed to provide effective support for patients. This overlay mattress requires a base mattress and features an alternating pressure relief function, which helps prevent and treat pressure injuries.

# TECHNICAL PARAMETERS

- active system up to stage II of pressure ulcers and for patients with a medium risk of developing pressure ulcers
- possibility of adjusting the patient's weight
- the system is placed on a foam mattress
- mattress is attached using flaps in the head and foot areas
- 18 air cells with pressure changes after 10 minutes
- ventilated cells in the middle part of the mattress - vapor-permeable, waterproof cover with snap fasteners

## MATTRESS

size ..... 190 - 197 x 80 cm  
height ..... 10,2 cm  
weight ..... 4,3 kg  
type ..... cover  
load capacity ..... 140 kg  
top cover material ..... Nylon / PU  
cell material ..... Nylon / PVC

## COMPRESSOR

dimensions ..... 25 x 12,5 x 8,5 cm  
mode ..... alternating mode  
noise ..... <40 dB  
holder ..... integrated  
weight ..... 1,4 kg  
material ..... Fire Retardant ABS
